Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Drawings

1. The drawings filed June 24, 2004 are objected to as failing to comply with:
 - a. 37 CFR 1.74 because Fig. 10 fails to include reference numerals identifying the parts of the invention.
 - b. 37 CFR 1.83(a) because Fig. 10 shows only a prior art arrangement, particularly the connection between the front auxiliary driveshaft and the transfer case. Fig. 10 shows that connection in the form of a standard Hooke's joint.
2. Figure 10, as it currently appears, should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. Fig. 10 is no different from Fig. 1 of US 6,155,395. See MPEP § 608.02(g).
3. Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted

by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The disclosure is objected to because in the brief description of the drawings Fig. 10 is described as showing “the invention” but that figure does not actually show the invention (see the drawing objections above). Furthermore, Fig. 10 is never mentioned in the in the detailed description of invention. Instead, it is mentioned only in the background discussion.

5. The specification is objected to as failing to comply with 37 CFR 1.71 and 1.75(d)(1) because the detailed description fails to provide proper antecedent basis for the following claimed subject matter:

- a. Claim 11, line 3: “one rotatably driven front axle”
- b. Claims 11, line 3: “one rotatably driven front vehicle wheel”
- c. Claim 11, line 4: “a rotatably driven rear axle”
- d. Claim 11, line 4: “one rotatably driven rear vehicle wheel”
- e. Claim 11, lines 6 & 7: “transmits rotational power from the source of rotational power to the front and rear axles”

6. In the amendment filed June 24, 2004, applicant states that the specification objections in item 5 above should be withdrawn because each of the noted claim limitations is mentioned in

Art Unit: 3679

the background of the invention. However, those limitations are not described in the detail description of the invention where the invention is supposed to be described.

Allowable Subject Matter

7. Claims 11-14 are allowed.

Conclusion

8. This application is in condition for allowance except for the formal matters noted above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
